Audience: Please forward to Health Care Providers

MANITOBA CURRENT STATE

Manitoba has shifted from containment to response planning.

New Cases: 0	Confirmed: 0	Risk Level: Low
--------------	--------------	-----------------

HIGHLIGHTS

- Four new Member States (Argentina, Chile, Poland and Ukraine) have reported cases of COVID-19 in the past 24 hours.
- WHO is working with governments, industry and the Pandemic Supply Chain Network to boost production and secure allocations for personal protective equipment (PPE) for critically affected and at-risk countries.
- For Canadians traveling abroad the risk associated with COVID-19 is low, however, it will vary depending on destination. For current and country specific travel advice please see the [Government of Canada's Travel Advice and Advisories website](#).
